Consolidated Financial Statements for the Six Months Ended June 30, 2015 and 2014 and Independent Auditors' Review Report

INDEPENDENT AUDITORS' REVIEW REPORT

The Board of Directors and Shareholders
U.D. ELECTRONIC CORP.

We have reviewed the accompanying consolidated balance sheets of U.D. ELECTRONIC CORP. and its subsidiaries (collectively, the "Company") as of June 30, 2015 and 2014, and the related consolidated statements of comprehensive income for the three months ended June 30, 2015 and 2014, six months ended June 30, 2015 and 2014, and changes in equity and cash flows for the six months ended June 30, 2015 and 2014. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these consolidated financial statements based on our reviews.

We conducted our reviews in accordance with Statement of Auditing Standards No. 36 - "Engagements to Review of Financial Statements" issued by the Auditing Standards Committee of the Accounting Research and Development Foundation of the Republic of China. A review consists principally of applying analytical procedures to financial data and of making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of China, the objective of which is the expression of an opinion regarding the consolidated financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the consolidated financial statements referred to in the first paragraph for them to be in conformity with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34 "Interim Financial Reporting" endorsed by the Financial Supervisory Commission of the Republic of China.

August 6, 2015

Notice to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such consolidated financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the independent auditors' review report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language independent auditors' review report and consolidated financial statements shall prevail. Also, as stated in Note 4 to the consolidated financial statements, the additional footnote disclosures that are not required under generally accepted accounting principles were not translated into English.

U.D. ELECTRONIC CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2015 AND 2014
(In Thousands of New Taiwan Dollars, Unless Stated Otherwise)
(Reviewed, Not Audited)

1. GENERAL INFORMATION

U.D. ELECTRONIC CORP. (the "Company") was incorporated in the Republic of China (ROC) on March 18, 2005 with a share capital $10,000 thousand, and the accumulated share capital was $696,758 thousand as of June 30, 2015. The principal activities of the Company are the sale of electronic materials and international trade.

The Company's shares have been traded on the Taipei Exchange since October 2012.

The shares are widely distributed; therefore, there is no ultimate parent company or ownership interest.

The consolidated financial statements are presented in the Company's functional currency, the New Taiwan dollar.

2. APPROVAL OF FINANCIAL STATEMENTS

The consolidated financial statements were approved by the Company's board of directors on August 6, 2015.

3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

a. Initial application of the amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the 2013 version of the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), Interpretations of IFRS (IFRIC), and Interpretations of IAS (SIC) endorsed by the Financial Supervisory Commission (FSC)

   Rule No. 1030029342 and Rule No. 1030010325 issued by the FSC on April 3, 2014, stipulated that the Company should apply the 2013 version of IFRS, IAS, IFRIC and SIC (collectively, the "IFRSs") endorsed by the FSC and the related amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers starting January 1, 2015.

   Except for the following, whenever applied, the initial application of the amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the 2013 IFRSs version would not have any material impact on the Group's accounting policies:

   1) IFRS 10 "Consolidated Financial Statements"

      IFRS 10 replaces IAS 27 "Consolidated and Separate Financial Statements" and SIC 12 "Consolidation - Special Purpose Entities". The Group considers whether it has control over other entities for consolidation. The Group has control over an investee only if it has (i) power over the investee; (ii) exposure, or rights, to variable returns from its involvement with the investee and (iii) the ability to use its power over the investee to affect the amount of its returns. Additional guidance has been included in IFRS 10 to explain when an investor has control over an investee.

2) IFRS 12 “Disclosure of Interests in Other Entities”

IFRS 12 is a new disclosure standard that applies to entities with interests in subsidiaries, joint arrangements, associates and unconsolidated structured entities. In general, the disclosure requirements in IFRS 12 are more extensive than those in the current standards.

3) IFRS 13 “Fair Value Measurement”

IFRS 13 establishes a single source of guidance for fair value measurements. It defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements. The disclosure requirements in IFRS 13 are more extensive than those required in the current standards. For example, quantitative and qualitative disclosures based on the three-level fair value hierarchy currently required for financial instruments only will be extended by IFRS 13 to cover all assets and liabilities within its scope.

The fair value measurements under IFRS 13 will be applied prospectively from January 1, 2015. Refer to Note 27 for related disclosures.

4) Amendments to IAS 1 “Presentation of Items of Other Comprehensive Income”

The amendments to IAS 1 requires items of other comprehensive income to be grouped into those items that (1) will not be reclassified subsequently to profit or loss; and (2) may be reclassified subsequently to profit or loss. Income taxes on related items of other comprehensive income are grouped on the same basis. Under the current IAS 1, there were no such requirements.

The Group retrospectively applied the above amendments starting from 2015. Items expected to be reclassified to profit or loss are the exchange differences on translating foreign operations. However, the application of the above amendments will not result in any impact on the net profit for the period, other comprehensive income for the period (net of income tax), and total comprehensive income for the period.

b. New IFRSs in issued but not yet endorsed by the FSC

The Group has not applied the following New IFRSs that had been issued by the IASB but not yet endorsed by the FSC. As of the date the consolidated financial statements were authorized for issue, the FSC has not announced their effective dates.

New IFRSs	Effective Date Announced by IASB (Note 1)
Annual Improvements to IFRSs 2010-2012 Cycle	July 1, 2014 (Note 2)
Annual Improvements to IFRSs 2011-2013 Cycle	July 1, 2014

Amendment to IAS 39 “Novation of Derivatives and Continuation of Hedge Accounting”	January 1, 2014
IFRIC 21 “Levies”	January 1, 2014

(Concluded)

Note 1: Unless stated otherwise, the above New IFRSs are effective for annual periods beginning on or after their respective effective dates.

Note 2: The amendment to IFRS 2 applies to share-based payment transactions with grant dates on or after July 1, 2014; the amendment to IFRS 3 applies to business combinations with acquisition dates on or after July 1, 2014; the amendment to IFRS 13 is effective immediately; and the remaining amendments are effective for annual periods beginning on or after July 1, 2014.

Note 3: Prospectively applicable to transactions occurring in annual periods beginning on or after January 1, 2016.

Note 4: The amendment to IFRS 5 is applied prospectively to changes in a method of disposal that occur in annual periods beginning on or after January 1, 2016; the remaining amendments are also effective for annual periods beginning on or after January 1, 2016.

The initial application of the above New IFRSs, whenever applied, would not have any material impact on the Group’s accounting policies, except for the following:

1) IFRS 9 “Financial Instruments”

   Recognition and measurement of financial assets

   All recognized financial assets that are within the scope of IAS 39 “Financial Instruments: Recognition and Measurement” are subsequently measured at amortized cost or fair value. Under IFRS 9, for the Group’s debt instruments with contractual cash flows that are solely payments of principal and interest on the principal amount outstanding, their classification and measurement are as follows:

   a) If the debt instruments are held within a business model whose objective is to collect contractual cash flows, the financial assets are measured at amortized cost and are assessed for impairment continually, with any impairment loss recognized in profit or loss. Interest revenue is recognized in profit or loss by using the effective interest method;

   b) If the debt instruments are held within a business model whose objective is to both to collect contractual cash flows and to sell financial assets, they are measured at fair value through other comprehensive income (FVTOCI) and are assessed for impairment quarterly. Interest revenue, to which the effective interest method is applied, impairment gains or losses and foreign exchange gains and losses are recognized in profit or loss. Other gain or loss is recognized in other comprehensive income. When the debt instruments are derecognized or reclassified, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss.

All financial assets are initially measured at fair value through profit or loss. However, for an equity investment that is within the scope of IFRS 9 and is not held for trading, the Group may, on initial recognition, make an irrevocable election to recognize this investment as at fair value through other comprehensive income, with gains and losses recognized in other comprehensive income, and only dividend income recognized in profit or loss. No subsequent impairment assessment is required, and the cumulative gain or loss previously recognized in other comprehensive income cannot be reclassified from equity to profit or loss.

The impairment of financial assets

IFRS 9 requires that impairment loss on financial assets is recognized by using the expected credit loss model. The expected credit loss allowance is required for certain financial assets measured at amortized cost, financial assets mandatorily measured at FVTOCI, certain lease receivables, contract assets within the scope of IFRS 15 "Revenue from Contracts with Customers," and certain written loan commitments and financial guarantee contracts. A loss allowance for the 12-month expected credit losses is required for a financial asset if its credit risk has not increased significantly since initial recognition. A loss allowance for full lifetime expected credit losses is required for a financial asset if its credit risk has increased significantly since initial recognition and is not low. However, a loss allowance for full lifetime expected credit losses is required for certain trade receivables that do not constitute a financing transaction.

For purchased or originated credit-impaired financial assets, the Group takes into account the expected credit losses on initial recognition, and these losses should be discounted using the credit-adjusted effective interest rate. Subsequently, any changes from the initial expected credit losses are recognized as a loss allowance, with the corresponding gain or loss recognized in profit or loss.

2) Amendment to IAS 36 "Recoverable Amount Disclosures for Non-financial Assets"

In issuing IFRS 13 "Fair Value Measurement," the IASB made a consequential amendment to the disclosure requirements in IAS 36 "Impairment of Assets," introducing a requirement to disclose in every reporting period the recoverable amount of an asset or cash-generating unit only when an impairment loss has been recognized or reversed during the period. The Group is also required to disclose the discount rate used in impairment or reversals if the recoverable amount based on fair value less costs of disposal is measured using a present value technique.

3) IFRIC 21 "Levies"

IFRIC 21 provides guidance on when to recognize a liability for levies imposed by a government. It addresses the accounting for a liability whose timing and amount are certain and the accounting for a provision whose timing or amount is not certain. The Group accrues the related liability when the transaction or activity that triggers the payment of the levy occurs. If the obligating event occurs over time (such as generation of revenue over a certain period), the liability is recognized progressively. When an obligation to pay a levy is triggered upon reaching or exceeding a minimum threshold (such as a minimum amount of revenue or sales generated), the related liability is recognized.

4) Annual Improvements to IFRSs: 2010-2012 Cycle

The amended IFRS 8 requires an entity to disclose the judgments made by management in applying the aggregation criteria to operating segments, including a description of the operating segments aggregated and the economic indicators assessed in determining whether the operating segments have similar economic characteristics. The amendment also clarifies that a reconciliation of the total of the reportable segments' assets to the entity's assets should be provided only if the information on the segments' assets is regularly provided to the chief operating decision-maker.

IAS 24 was amended to clarify that a management entity providing key management personnel services to the Group is a related party of the Group. Consequently, the Group is required to disclose as related party transactions the amounts incurred for the service paid or payable to the management entity for the provision of key management personnel services. However, disclosure of the components of this compensation is not required.

5) Annual Improvements to IFRSs: 2011-2013 Cycle

The amended IFRS 13 clarifies that the portfolio exception for measuring the fair value of a group of financial assets and financial liabilities on a net basis applies to all contracts that are within the scope of, and accounted for in accordance with, IAS 39 or IFRS 9, even if these contracts do not meet the definitions of financial assets or financial liabilities within IAS 32.

6) Amendments to IAS 16 and IAS 38 "Clarification of Acceptable Methods of Depreciation and Amortization"

The entity should use appropriate depreciation and amortization methods to reflect the pattern in which the future economic benefits of the property, plant and equipment and intangible assets are expected to be consumed by the entity.

The amended IAS 16 "Property, Plant and Equipment" states that a depreciation method based on revenue generated by an activity that includes the use of an asset is not appropriate. The amended standard does not provide any exception from this requirement.

The amended IAS 38 "Intangible Assets" introduces a presumption that a revenue-based amortization method for intangible asset is not appropriate. However, this presumption is rebuttable under any of the following limited circumstances:

a) The intangible asset is expressed as a measure of revenue (for example, the contract that specifies the entity's use of the intangible asset will expire upon achievement of a revenue threshold); or

b) It can be demonstrated that revenue and the consumption of the economic benefits of the intangible asset are highly correlated.

An entity should apply the aforementioned amendments prospectively for annual periods beginning on or after the effective date.

7) IFRS 15 "Revenue from Contracts with Customers"

IFRS 15, which is effective for annual periods beginning on or after January 1, 2017, establishes principles for recognizing revenue that apply to all contracts with customers, and will supersede IAS 18 "Revenue", IAS 11 "Construction Contracts" and a number of revenue-related interpretations.

When applying IFRS 15, an entity should recognize revenue by applying the following steps:

- Identify the contract with a customer.
- Identify the performance obligations in the contract.
- Determine the transaction price.
- Allocate the transaction price to the performance obligations in the contract.
- Recognize revenue when (or as) the entity satisfies a performance obligation.

When IFRS 15 is effective, an entity may elect to apply this Standard either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying this Standard recognized at the date of initial application.

8) Annual Improvements to IFRSs: 2012-2014 Cycle

Several standards including IFRS 5 "Non-current assets held for sale and discontinued operations", IFRS 7, IAS 19 and IAS 34 were amended in this annual improvement.

The amendments to IFRS 7 provide additional guidance to clarify whether a servicing contract is continuing involvement in a transferred asset. In addition, the amendments clarify that the offsetting disclosures are not explicitly required for all interim periods; however, the disclosures may need to be included in condensed interim financial statements to comply with IAS 34 under specific conditions.

9) Amendment to IAS 1 "Disclosure Initiative"

The amendment clarifies that the consolidated financial statements should be prepared for the purpose of disclosing material information. To improve the understandability of its consolidated financial statements, the Group should disaggregate the disclosure of material items into their different natures or functions, and disaggregate material information from immaterial information.

The amendment further clarifies that the Group should consider the understandability and comparability of its consolidated financial statements to determine a systematic order in presenting its footnotes.

Except for the above impact, as of the date the consolidated financial statements were authorized for issue, the Group was continuing to assess the possible impact that the application of other standards and interpretations would have on the Group's financial position and financial performance, and will disclose the impact when the assessment is completed.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

For the convenience of readers, the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the ROC. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language consolidated financial statements shall prevail. However, the consolidated financial statements do not include the English translation of the additional footnote disclosures that are not required under IFRSs but are required by the FSC for their oversight purposes.

a. Statement of compliance

The consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 “Interim Financial Reporting” as endorsed by FSC. Disclosure information included in the consolidated financial statements is less than those required in a complete set of annual financial statements.

b. Basis of consolidation

See Note 11 for the detailed information of subsidiaries (including the percentage of ownership and main business).

c. Basis of preparation

These interim consolidated financial statements have been prepared on the historical cost basis except for financial instruments which are measured at fair value.

The fair value measurements are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;

2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

3) Level 3 inputs are unobservable inputs for the asset or liability.

d. Other accounting policies

Except for the following, the accounting policies applied in these consolidated financial statements are consistent with those applied in the consolidated financial statements for the year ended December 31, 2014.

1) Foreign currencies

On the disposal of a foreign operation (i.e. a disposal of the Company’s entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

In relation to a partial disposal of a subsidiary that does not result in the Company losing control over the subsidiary, the proportionate share of accumulated exchange differences is re-attributed to non-controlling interests of the subsidiary and is not recognized in profit or loss. For all other partial disposals, the proportionate share of the accumulated exchange differences recognized in other comprehensive income is reclassified to profit or loss.

2) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax. Interim period income taxes are assessed on an annual basis and calculated by applying to an interim period’s pre-tax income the tax rate that would be applicable to expected total annual earnings.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

Except the stated below, the critical accounting judgments and key sources of estimates and uncertainty followed in these consolidated financial statements were as applied in the preparation of the consolidated financial statements for the year ended December 31, 2014.

Fair Value Measurements and Valuation Processes

If some of the Group's assets and liabilities measured at fair value have no quoted prices in active markets, the Group will follow applicable law and regulations or judgments to determine whether to engage third party qualified valuers and to determine the appropriate valuation techniques for fair value measurements.

Where Level 1 inputs are not available, the Group would determine appropriate inputs by referring to market prices or rates and specific features of derivatives. If the actual changes of inputs in the future differ from expectation, fair value might vary accordingly. The Group updates inputs every quarter to confirm the appropriateness of fair value measurement.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities is disclosed in Note 27.

(Concluded)

The financial assets at fair value through profit or loss held by the Group were forward exchange contracts and mutual funds. For the six months ended June 30, 2015 and 2014, the gains on the valuation of financial instruments recognized by the Group were $24,083 thousand and $2,102 thousand, respectively.

The financial liabilities at fair value through profit or loss held by the Group were convertible options and currency exchange option contracts. For the six months ended June 30, 2015, the losses on the valuation of financial instruments recognized by the Group were $2,153 thousand and $0 thousand, respectively. For the six months ended June 30, 2014, the (gains) losses on the valuation of financial instruments recognized by the Group were $(3,552) thousand and $53,885 thousand, respectively.

For the six months ended June 30, 2015 and 2014, the Group entered into forward exchange contracts and currency exchange option contracts to manage exposures to exchange rate fluctuations of foreign currency denominated assets and liabilities. However, those contracts did not meet the criteria of hedge effectiveness and therefore were not accounted for using hedge accounting.

At the end of the reporting period, outstanding forward exchange contracts not under hedge accounting were as follows:

	Currency	Maturity Period	Notional Amount (In Thousands)
June 30, 2015			
Sell	USD/RMB	2015.07.13-2015.10.16	USD24,000/RMB150,089

As of December 31, 2014 and June 30, 2014, the currency exchange option contracts held by the Group and the terms of the transactions were as follows:

Others	1,759	1,356	774
	$ 49,807	$ 69,143	$ 42,588

a. Notes receivable

The average collection period for notes receivable was 30 to 180 days. In determining the recoverability of a note receivable, the Group considered any change in the credit quality of the note receivables since the date credit was initially granted to the end of the reporting period. Historical experience had been that all note receivables were recoverable. An allowance for doubtful accounts was recognized against note receivables based on estimated irrecoverable amounts determined by reference to past default experience of the counterparties and an analysis of their current financial position.

There were no notes receivable that were past due at the end of the reporting period; in addition, the Group had not recognized an allowance for doubtful accounts for these receivables

b. Accounts receivable

The Group has no material irrecoverable trade receivables and it periodically evaluates the reasons for overdue receivables individually. After evaluating and screening unusual amounts out, the Group estimates the allowance for doubtful accounts rate by dividing overdue receivables by the net sales, and irrecoverable amounts are calculated by multiplying the rate and the current receivables together.

For the accounts receivable that were past due at the end of the reporting date but for which no allowance for doubtful accounts had been recognized by the Group, the Group still considered these receivables as recoverable since there was no significant change in their credit quality. The Group had no collateral or other credit enhancements for these receivables.

The aging of receivables was as follows:

	June 30, 2015	December 31, 2014	June 30, 2014
Not overdue	$ 752,949	$ 900,831	$ 1,103,863
Less than 60 days	78,715	141,781	23,549
61-90 days	-	-	44
91-120 days	-	75	-
Over 120 days	-	-	-
	$ 831,664	$ 1,042,687	$ 1,127,456

The above aging schedule was based on the past due date.

The aging of receivables that were past due but not impaired was as follows:

	June 30, 2015	December 31, 2014	June 30, 2014
Less than 60 days	$ 78,673	$ 141,766	$ 23,549
61-90 days	-	-	44
91-120 days	-	75	-
Over 120 days	-	-	-
	$ 78,673	$ 141,841	$ 23,593

The above aging schedule was based on the past due date.

The movements of the allowance for doubtful trade receivables were as follows:

	Individually Assessed for Impairment	Collectively Assessed for Impairment	Total
Balance at January 1, 2014	$ 259	$ -	$ 259
Less: Impairment losses reversed	(259)	-	(259)
Balance at June 30, 2014	$ -	$ -	$ -
Balance at January 1, 2015	$ 15	$ -	$ 15
Add: Impairment losses recognized on receivables	27	-	27
Balance at June 30, 2015	$ 42	$ -	$ 42

Factored trade receivables for the six months ended June 30, 2015 and 2014 were as follows:

Counter-parties	Receivables Sold	Amounts Collected	Advances Received at Period-end	Interest Rates on Advances Received (%)	Credit Line
June 30, 2015					
Yuanta Commercial Bank	$ 87,882	$ 16,144	$ 79,094	0.95-1.25	US$ 16,000
Taipei Fubon Commercial Bank Co., Ltd.	386,559	416,444	220,584	1.03-1.04	US$ 18,000
	$ 474,441	$ 432,588	$ 299,678		
June 30, 2014					
Yuanta Commercial Bank	$ 183,117	$ 226,983	$ 81,748	1.50-1.60	US$ 16,000
CTBC Commercial Bank Co., Ltd.	136,577	98,247	84,294	1.29-1.53	NT$350,000
Taipei Fubon Commercial Bank Co., Ltd.	117,773	90,366	75,289	1.32	US$ 6,000
	$ 437,467	$ 415,596	$ 241,331		

The above credit lines may be used on a revolving basis.

Under the Group's factoring agreements, losses from commercial disputes (such as sales returns or allowances) were borne by the Group, while losses from the credit risks were borne by the banks. As of June 30, 2015, the Group had issued promissory notes consisting of checks for US$16,000 thousand. As of June 30, 2014, the Group had issued promissory notes consisting of checks for $350,000 thousand and US$22,000 thousand, respectively.

c. Other receivables

Other receivables are tax refund receivables and trade receivables factoring with reserve. Historical experience shows that the majority of other receivables are recoverable. Thus, no allowance for doubtful accounts has been recognized for other receivables because of the on-time payments made by counterparties in the past and an analysis showing that their current financial position is positive.

10. INVENTORIES

	June 30, 2015	December 31, 2014	June 30, 2014
Finished goods	$ 304,265	$ 296,037	$ 234,373
Work in progress	1,046,871	885,337	618,713
Raw materials and supplies	131,225	143,668	168,620
Inventory in transit	-	-	579
	$ 1,482,361	$ 1,325,042	$ 1,022,285

The cost of inventories recognized as cost of goods sold included inventory write-downs of $448 thousand for the three months ended June 30, 2015 and $102 thousand for the six months ended June 30, 2015.

The cost of inventories recognized as cost of goods sold included reversal of inventory write-downs of $11,367 thousand for the three months ended June 30, 2014 and $1,321 thousand for the six months ended June 30, 2014. Previous write-downs were reversed as a result of increased selling prices in certain markets.

a. Unsecured domestic convertible bonds

On November 29, 2013, the Group issued 3,000 thousand New Taiwan dollar-denominated unsecured convertible bonds with effective interest rate of 2.15%. The aggregate principal of the bonds is $300,000 thousand. The issue period is three years from November 29, 2013 to November 29, 2016.

The coupon rate is 0%; therefore, no interest payment term was determined. Unless there is bond conversion and/or early redemption by the Group, the bonds will be redeemable at the option of bondholders after two years of the issuance at the principal amount, with interest compensation in cash.

Other bond terms and conditions were as follows: The conversion price will be set in the following way: One of the simple arithmetic means of the closing prices of 1, 3, or 5 trading days prior to November 21, 2013, the conversion price setting date, times 101.70 %, the convertible premium rate. The conversion price will be adjusted when there is occurrence of excluded dividends and excluded rights. On the issuance date, the conversion price was set at NT$85.40 per share. The conversion price was adjusted to NT$75.10 after distribution of dividend on July 22, 2015.

The convertible bonds contain both liability and equity components. The equity component was presented in equity under capital surplus - option. The effective interest rate for the liability component was 2.15% per annum on initial recognition.

Fully paid ordinary shares, which have a par value of NT$10, carry one vote per share and the right to dividends.

The Company's ordinary shares changed during the six months ended June 30, 2014 on account of conversion of convertible bonds.

For the six months ended June 30, 2015 and 2014, the Company's convertible bonds with a book value $0 thousand and $98,200 thousand had been converted into 0 thousand ordinary shares and 1,150 thousand ordinary shares, respectively.

b. Capital surplus

The capital surplus arising from shares issued in excess of par (including share premium from issuance of common shares) may be distributed as cash dividends, or may be transferred to share capital once a year within a certain percentage of the Company's paid-in capital when the Company has no deficit.

The capital surplus arising from investments accounted for using equity method, employee share options and share warrants may not be used for any purpose.

c. Retained earnings and dividend policy

According to the Company's Articles of Incorporation, when allocating the net profits for each fiscal year, the Company should first pay income tax, offset its prior years' losses, and appropriate 10% of net income to legal reserve. Legal reserve should be appropriated until the reserve equals to the Company's paid-in capital. A special reserve may be appropriated in accordance with relevant laws or a resolution approved at the shareholders' meeting. The board of directors then proposes the following appropriations from the remaining distributable earnings and presents this proposal for approval at the shareholders' meeting:

1) Remuneration to directors and supervisors - should be paid by cash and not exceed 3% of the current earnings remainder;

2) Bonus to employees - should be between 3% and 15% of the current earnings remainder. The bonus to employees is allowed to share with employees within the Group under the conditions set by board of directors;

3) The bonus to shareholders that were proposed by the board of directors after considering the remaining under the above items (1) to (2) plus the reversal of special reserve and the unappropriated retained earnings of previous years.

The Company's dividend policy will consider its operating environment, the sufficiency of its cash for future expansion, its long-term financial plan and the shareholders' cash flow requirements in determining the stock or cash dividends to be paid. For a steady profitability, a healthy financial structure, and the stability of earnings per share, the Company stipulated a dividend policy that at least 10% of income after tax may be distributed as cash dividends or stock dividends, and cash dividends should not be lower than 10% of total bonus to shareholders.

In accordance with the amendments to the Company Act in May 2015, the recipients of dividends and bonuses are limited to shareholders and do not include employees. Accordingly, the Company expects to make amendments to the Company's Articles of Incorporation to be approved during the 2016 annual shareholders' meeting. For information about the accrual basis of the employees' compensation and remuneration to directors and supervisors for the three months ended June 30, 2015 and 2014, and the six months ended June 30, 2015 and 2014, and the actual appropriations for the years ended December 31, 2014 and 2013, please refer to employee benefits expense in Note 22.

Under Rule No. 1010012865 and Rule No. 1010047490 issued by the Financial Supervisory Commission and the directive entitled "Questions and Answers for Special Reserves Appropriated Following Adoption of IFRSs," the Company should appropriate or reverse a special reserve. Any special reserve appropriated may be reversed to the extent that the net debit balance reverses and thereafter distributed.

Under Article 237 of Company Law, a company should appropriate 10% of net income to legal reserve. Legal reserve should be appropriated until the legal reserve equals the Company's paid-in capital. Legal reserve may be used to offset deficit. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital or distributed in cash.

Except for non-ROC resident shareholders, all shareholders receiving the dividends are allowed a tax credit equal to their proportionate share of the income tax paid by the Company.

The appropriations from the earnings for 2014 and 2013 were approved in the shareholders' meetings on June 17, 2015 and June 13, 2014, respectively. The appropriations and dividends per share were as follows:

Under the Company Act as amended in May 2015, the Company's Articles of Incorporation should stipulate a fixed amount or ratio of annual profit to be distributed as employees' compensation. However, the Company has not made consequential amendments to its policies for distribution of employees' compensation. The bonus to employees and remuneration to directors and supervisors which represented 3%-15% and 3%, respectively, of net income (net of the bonus and compensation), were as follows:

	Three Months Ended June 30		**Six Months Ended June 30**	
	2015	**2014**	**2015**	**2014**
Bonus to employees	$ 2,720	$ 9,600	$ 9,936	$ 16,224
Remuneration to directors and supervisors	1,258	2,400	2,981	4,128

Material differences between such estimated amounts and the amounts proposed by the board of directors on or before the annual consolidated financial statements are authorized for issue are adjusted in the year the bonus and remuneration were recognized. If there is a change in the proposed amounts after the annual consolidated financial statements are authorized for issue, the differences are recorded as a change in accounting estimate. If a share bonus is resolved to be distributed to employees, the number of shares is determined by dividing the amount of the share bonus by the closing price (after considering the effect of cash and stock dividends) of the shares of the day immediately preceding the shareholders' meeting.

The appropriations for bonus to employees and remuneration to directors and supervisors for 2014 and 2013 have been approved in the shareholders' meetings on June 17, 2015 and June 13, 2014, respectively, were as follows:

	Year Ended December 31			
	2014		**2013**	
	Cash Dividends	**Share Dividends**	**Cash Dividends**	**Share Dividends**
Bonus to employees	$ 52,000	$ -	$ 56,000	$ -
Remuneration of directors and supervisors	13,000	-	14,000	-

The amounts of bonus to employees and remuneration to directors and supervisors approved in the shareholders' meetings on June 17, 2015 and June 13, 2014 are consisted with the amounts recognized in the financial statements for the years ended December 31, 2014 and 2013.

Information on the bonus to employees, directors and supervisors proposed by the Company's board of directors is available on the Market Observation Post System website of the Taiwan Stock Exchange.

23. INCOME TAXES

a. Income tax recognized in profit or loss

The major components of tax expense were as follows:

	Three Months Ended June 30		Six Months Ended June 30	
	2015	2014	2015	2014
Current tax				
Current year	$ 10,018	$ 30,377	$ 22,600	$ 74,396

The creditable ratios for the distribution of the earnings of 2014 and 2013 were 15.59% (expected ratio) and 18.02%, respectively.

d. Income tax assessments

The Company’s tax returns through 2013 have been assessed by the tax authorities.

24. EARNINGS PER SHARE

Unit: NT$ Per Share

	Three Months Ended June 30		Six Months Ended June 30	
	2015	2014	2015	2014
Basic earnings per share	$ 0.67	$ 1.86	$ 1.59	$ 3.25
Diluted earnings per share	$ 0.66	$ 1.80	$ 1.54	$ 3.12

The earnings and weighted average number of ordinary shares outstanding that were used in the computation of earnings per share from continuing operations were as follows:

Net Profit for the Period

	Three Months Ended June 30		Six Months Ended June 30	
	2015	2014	2015	2014
Profit for the period attributable to owners of the Company	$ 46,865	$ 128,093	$ 110,799	$ 222,009
Effect of potentially dilutive ordinary shares:				
Convertible bonds	675	1,074	1,321	2,560
Earnings used in the computation of diluted earnings per share	$ 47,540	$ 129,167	$ 112,120	$ 224,569

Shares

	Three Months Ended June 30		Six Months Ended June 30

Weighted average number of ordinary shares in computation of basic earnings per share	69,676	68,739	69,676	68,325
Effect of potentially dilutive ordinary shares:				
Employee share option	1,038	648	1,403	840
Convertible bonds	1,676	2,479	1,676	2,904
Weighted average number of ordinary shares used in the computation of diluted earnings per share	72,390	71,866	72,755	72,069

If the Group offers employees bonuses or compensation in cash or shares, the Group assumes the entire amount of the bonus or compensation will be settled in shares, and the resulting potential shares will be included in the weighted average number of shares outstanding used in the computation of diluted earnings per share, if the effect is dilutive. The dilutive effect of the potential shares will included in the computation of diluted earnings per share until the shareholders resolve the number of shares to be distributed to employees at their meeting in the following year.

25. NON-CASH TRANSACTIONS

For the six months ended June 30, 2015 and 2014, the Group entered into the following non-cash investing activities which were not reflected in the consolidated statement of cash flows:

As of June 30, 2015, December 31, 2014 and June 30, 2014, the amounts unpaid for acquiring property, plant and equipment were $67,025 thousand, $90,206 thousand and $45,391 thousand, respectively, which were included in other payables.

The cash dividends approved in the shareholders' meetings were not yet distributed as of June 30, 2015 and 2014, respectively (refer to Note 20).

26. OPERATING LEASE ARRANGEMENTS

The Group as Lessee

Operating leases relate to lease of plants and business premises with lease term between 3 to 10 years.

As of June 30, 2015, December 31, 2014 and June 30, 2014, the Group had paid $12,498 thousand, $7,471 thousand and $6,240 thousand, respectively, as refundable deposits for these operating leases.

The future minimum lease payments for non-cancelable operating lease commitments were as follows:

	June 30, 2015	December 31, 2014	June 30, 2014
1 year	$ 23,128	$ 30,839	$ 29,063

2) Valuation techniques and inputs applied for the purpose of measuring Level 2 fair value measurement

Financial Instruments	Valuation Techniques and Inputs
Derivatives - forward exchange contracts	Discounted cash flow. Future cash flows are estimated based on observable forward exchange rates at the end of the reporting period and contract forward rates, discounted at a rate that reflects the credit risk of various counterparties.

3) Valuation techniques and inputs applied for the purpose of measuring Level 3 fair value measurement

a) The fair values of unlisted equity securities were determined using valuation technique.

b) The fair values of currency exchange option contracts are determined using discounted cash flow. Future cash flows are estimated based on observable forward exchange rates at the end of the reporting period and contract forward rates, discounted at a rate that reflects the credit risk of various counterparties.

c) The fair values of convertible options are determined using option pricing models to estimate at FVTPL.

1) The balances included cash and cash equivalents, notes receivable, trade and other receivables (including receivables from related parties, but excluding tax refund receivable), other assets - restricted assets and refundable deposits.

2) The balances included short-term loans, trade and other payables (except salaries and bonuses), bonds payable and guarantee deposit received.

3) The balances included financial assets measured at cost.

d. Financial risk management objectives and policies

The Group's major financial instruments include cash and cash equivalents, financial assets (liabilities) at fair value through profit or loss, notes receivable, trade receivables, financial assets measured at cost, trade payables, borrowings and bonds payable.

Risks on the financial instruments include market risk (such as currency risk and interest rate risk), credit risk and liquidity risk.

1) Market risk

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates (see (a) below) and interest rates (see (b) below).

a) Foreign currency risk

The Group has foreign currency sales and purchases, which expose the Group to foreign currency risk. The Group assesses the net risk position of non-functional currency sales and purchases periodically and adjusts its non-functional cash position on the basis of its assessment.

Please reference Note 31 for both monetary assets and monetary liabilities held by the Group in non-functional currencies (including both monetary assets and monetary liabilities which were offset in the consolidated financial statements).

Sensitivity analysis

The Group was mainly exposed to the exchange movements in USD and RMB.

The following table details the Group's sensitivity to a 1% increase and decrease in New Taiwan dollars (the functional currency) against the relevant foreign currencies. The 1% sensitivity rate is used in reporting foreign currency risk internally to key management and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis included only outstanding foreign currency denominated monetary items and adjusts their translation at the end of the reporting period for a 1% change in foreign currency rates. Sensitivity analysis includes trade receivables and payables to entities outside of the Group, and trade receivables and payables to its foreign operations. A positive number below indicates an increase in pretax profit and other equity associated with a 1% weakening of the New Taiwan dollars against the relevant currency. For a 1% strengthening of the New Taiwan dollar against the relevant currency, there would be an equal and opposite impact on pretax profit and other equity, and the balances below would be negative.

	US Dollar Impact		**RMB Impact**	
	Six Months Ended June 30		**Six Months Ended June 30**	
	2015	**2014**	**2015**	**2014**
Profit or loss*	$ (2,301)	$ 10,147	$ 617	$ 3,480
Equity	-	-	-	-

* This was mainly attributable to the exposure on outstanding accounts receivable and payable and unrealized forward exchange contract on a financial asset or financial liability at FVTPL in both USD and RMB, which were not hedged at the end of the reporting period.

In management's opinion, sensitivity analysis was unrepresentative of the inherent foreign exchange risk because the change in foreign exchange rate at the end of the reporting period could not reflect the risk of change in exchange rate during the year.

The following table details the Group's sensitivity in the investment of currency exchange option contracts to a 1% increase and decrease in Renminbi (RMB) against the relevant foreign currencies. The sensitivity analysis included only outstanding foreign currency forward contracts, and their translation at the end of the reporting period was adjusted for a 1% change in foreign currency rates. The sensitivity analysis included the option contracts of the financial instruments at fair value through profit or loss held by the Company. A positive number below indicates an increase in profit and other equity associated with the 1% strengthening by the RMB against the relevant currency. For a 1% weakening of the RMB against the relevant currency, there would be an equal and opposite impact on profit and other equity, and the balances below would be negative.

	Impact of % Increase in RMB		**Impact of % Decrease in RMB**	
	Six Months Ended June 30		**Six Months Ended June 30**	
	2015	**2014**	**2015**	**2014**
Profit or loss*	$ -	$ 22,099	$ -	$ (21,664)

* This refers to the unrealized currency exchange option contract on a financial asset or financial liability at fair value through profit or loss on the reporting date (Note 7).

b) Interest rate risk

The Group was exposed to interest rate risk because some Group entities borrowed funds from banks and issued convertible bonds at both fixed and floating interest rates.

The carrying amounts of the Group's financial assets and financial liabilities with exposure to interest rates at the end of the reporting period were as follows.

	June 30, 2015	**December 31, 2014**	**June 30, 2014**
Fair value interest rate risk			
Financial assets	$ 370,100	$ 488,031	$ 108,051
Financial liabilities	120,959	119,368	188,771
Cash flow interest rate risk			
Financial assets	420,789	540,111	703,743
Financial liabilities	540,050	553,875	313,582

Sensitivity analysis

The sensitivity analysis below was based on the Group's exposure to interest rates for non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis was prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 1% increase or decrease was used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

Had interest rates been 1% higher/lower and all other variables held constant, the Group's pretax profits for the six months ended June 30, 2015 and 2014 would had (decreased) increased by $(596) thousand and $1,951 thousand, respectively, which was mainly attributable to the Group's exposure to interest rates on its variable-rate borrowings and bank deposits.

2) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations, resulting in financial loss to the Group. As at the end of the reporting period, the Group's maximum exposure to credit risk, which will cause a financial loss to the Group due to the failure of counterparties to discharge an obligation and financial guarantees provided by the Group could arise from the carrying amounts of the respective recognized financial assets as stated in the balance sheets.

The Group adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group only transacts with entities that are rated the equivalent of investment grade and above. This information is supplied by independent rating agencies where available and, if not available, the Group uses other publicly available financial information and its own trading records to rate its major customers. The Group continues to monitor its credit exposure and the credit ratings of its counterparties. Credit exposure is controlled by setting a counterparty credit limit, which is approved and periodically reviewed by the risk management committee.

To minimize credit risk, management of the Group has delegated a team to be responsible for determining credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate allowances are made for irrecoverable amounts. Thus, management believes the Group's credit risk was significantly reduced.

The Group did transactions with a large number of unrelated customers and, thus, no concentration of credit risk was observed.

3) Liquidity risk

The Group manages liquidity risk by monitoring and maintaining a level of cash and cash equivalents deemed adequate to finance the Group's operations and mitigate the effects of negative fluctuations in cash flows.

a) Liquidity and interest risk rate tables for non-derivative financial liabilities

The following table shows the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables had been drawn up on the basis of undiscounted cash flows of financial liabilities from the earliest date on which the Group can be required to pay. The tables included both interest and principal cash flows.

The maturity dates for other non-derivative financial liabilities were based on the agreed-upon repayment dates.

The amounts included above for variable interest rate instruments for non-derivative financial liabilities was subject to change if actual changes in variable interest rates differ from those estimates of interest rates determined at the end of the reporting period.

b) Liquidity and interest risk rate tables for derivative financial liabilities

The following table shows the Group's liquidity analysis for its derivative financial instruments. The table was based on the undiscounted contractual net cash inflows and outflows on derivative instruments that settle on a net basis and the undiscounted gross inflows and outflows on those derivatives that require gross settlement. When the amount payable or receivable is not fixed, the amount disclosed has been determined by reference to the projected interest rates as illustrated by the yield curves at the end of the reporting period.
